**SUPPLEMENTAL AFFIDAVIT REGARDING NOTICE  
AND PROVIDING ADDITIONAL STATEMENT REQUIRED  
BY 16 TEX ADMIN. CODE (TAC) § 22.52(a)(3)(D)**

**STATE OF TEXAS** §  
§  
§

BEFORE ME, the undersigned authority, on this day personally appeared Sonya Strambler, and being by me duly sworn, upon oath declared that the statements and capacity acted in are true and correct.

“My name is Sonya Strambler. I am an employee of the Lower Colorado River Authority. I am over twenty-one years of age and I am competent to make this Affidavit. I have personal knowledge of the facts contained herein and they are true and correct.

“In accordance with 16 TEX. ADMIN. CODE (TAC) § 22.52(a)(3)(D), some formal contacts related to this proceeding have occurred between LCRA Transmission Services Corporation (LCRA TSC) and/or AEP Texas Inc. and landowners other than the notices provided by first class mail.

“In addition, after the provision of mailed notice in this case on November 7, 2018, LCRA TSC found that an owner of directly affected land had not been mailed such notice. To address this, LCRA TSC provided notice to the owner of the directly affected land by United Parcel Service (UPS) next day air delivery with delivery confirmation, with such delivery occurring on December 5, 2018. The notice provided by UPS next day air delivery advised, in bold and underlined type, the owner of the directly affected land of the current intervention deadline of December 27, 2018. A copy of the notice letter is attached as Exhibit A (without the attachments).

“Further, affiant sayeth not.”

**Re:** *Joint Application of LCRA Transmission Services Corporation and AEP Texas Inc. to Amend their Certificates of Convenience and Necessity for the Proposed Bakersfield to Solstice 345-kV Transmission Line Project in Pecos County, Texas*

**PUBLIC UTILITY COMMISSION OF TEXAS (PUC) DOCKET NO. 48785 (ORIGINALLY DOCKETED SEPARATELY AS PUC DOCKET NO. 48787)**

Tract ID: F-001

Dear Landowner:

This letter is to inform you that LCRA Transmission Services Corporation and AEP Texas Inc. are requesting approval from the Public Utility Commission of Texas (PUC) to amend their Certificates of Convenience and Necessity (CCN) to construct the proposed Bakersfield to Solstice 345-kV Transmission Line Project in Pecos County, Texas. The proposed transmission line will connect LCRA TSC's existing Bakersfield Station located approximately 38 miles northeast of the City of Fort Stockton off of Farm to Market Road 1901 to AEP Texas' existing Solstice Switch Station located approximately 29 miles west of the City of Fort Stockton on the north side of Interstate Highway 10 near Hovey Road. LCRA TSC will construct, own, operate and maintain the eastern half of the transmission line connecting to LCRA TSC's Bakersfield Station and AEP Texas will construct, own, operate and maintain the western half of the transmission line connecting to AEP Texas' Solstice Switch Station. The entire project will range from approximately 68 to 92 miles in length and is estimated to cost approximately \$194 million to \$237 million (including station costs), depending upon the final route chosen by the PUC.

Your land may be directly affected in this docket. If one of LCRA TSC and AEP Texas' routes is approved by the PUC, LCRA TSC and AEP Texas will have the right to build the facilities, which may directly affect your land. This docket will not determine the value of your land or the value of an easement if one is needed by LCRA TSC or AEP Texas to build the facilities.

If you have questions about the transmission line, you can call 512-578-2692. The descriptions of the proposed routing alternatives and a map showing the proposed alternative routes are enclosed for your convenience.

The CCN application, including detailed routing maps illustrating the proposed transmission line project and project area, may be reviewed on the project website at [www.lcra.org/baksol](http://www.lcra.org/baksol) and at the Pecos County Clerk, 200 S. Nelson St., Fort Stockton, Texas 79735.

**All routes and route segments included in this notice are available for selection and approval by the Public Utility Commission of Texas.**

The enclosed brochure entitled "Landowners and Transmission Line Cases at the PUC" (also available online at [www.puc.texas.gov](http://www.puc.texas.gov)) provides basic information about how you may participate in this docket, and how you may contact the PUC. Please read this brochure carefully. The brochure includes sample forms for making comments and for making a request to intervene as a party in this docket. ***The only way to fully participate in the PUC's decision on where to locate the transmission line is to intervene in the docket. It is important for an affected person to intervene because LCRA TSC and AEP Texas are not obligated to keep affected people informed of the PUC's proceedings and cannot predict which route may or may not be approved by the PUC.***

In addition to the contacts listed in the brochure, you may call the PUC's Customer Assistance Hotline at 888-782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the PUC's Customer Assistance Hotline at 512-936-7136, or toll free at 800-735-2989. **If you wish to participate in this proceeding by becoming an intervenor, the deadline for intervention in the proceeding is December 27, 2018, and the PUC should receive a letter from you requesting intervention by that date.** Mail the request for intervention and 10 copies of the request to:

Public Utility Commission of Texas  
Central Records  
Attn: Filing Clerk  
1701 N. Congress Ave.  
P.O. Box 13326  
Austin, Texas 78711-3326

People who wish to intervene in the docket must also mail a copy of their request for intervention to all parties in the docket and all people who have pending motions to intervene, at or before the time the request for intervention is mailed to the PUC. In addition to the intervention deadline, other important deadlines may already exist that affect your participation in this docket. You should review the orders and other filings already made in the docket. The enclosed brochure explains how you can access these filings.

Thank you for your interest in this project.

Sincerely,

Sonya Strambler
